Thanks to your generous support, the following additional 8 children (6 Dominican and 2 Haitian) received their second chance at life during the May 2015 International Children's Heart Foundation (ICHF) mission to the Dominican Republic. Through your efforts and the funding raised through GG1423047, a total of 23 children and their families now have hope for a healthy future.

We wish to express our most sincere thanks to the ICHF medical team for providing the lifesaving surgeries for each of these precious children.

Thank you to Jordi Gasso and the Gift of Life Dominican Republic for helping to coordinate logistics and record the necessary data.

Thank you to all partners for helping to heal more little hearts around the world and provide hope where once there was only despair.
