ROTARIANS IN ACTION
Healing more little hearts in Romania

The October 2018 Training Visit was the seventh to Grigore Alexandrescu Hospital (GAH) in Bucharest, Romania since the opening of the state-of-the-art pediatric cardiac unit in 2016. The local team, led by cardiac surgeon Dr. Manuel Chira, was comprised of healthcare professionals from the Cluj Napoca Heart Institute and from Grigore Alexandrescu Hospital. The visiting team from Albany Medical Center, led by pediatric interventional cardiologist Dr. Harm Velvis, returned for their third training mission. The addition of the Cluj surgical team and the enhanced skills of the GAH nurses and OR staff have allowed this program to move forward in their ability to treat Romanian children in their country of birth.

A total of 13 children were treated during this mission week - 8 open heart surgeries and 5 interventional catheterizations. Additionally, 1 diagnostic catheterization was completed and 1 more interventional catheterization which was unsuccessful in the correction of the heart defect. All open heart surgeries were completed under the leadership of Romanian surgeon, Dr. Manuel Chira.

In addition to healing the hearts of these precious children, a formal presentation of operating theatre instruments and imaging equipment purchased through this Rotary Global Grant was made to the administration of the Cluj Napoca Heart Institute.

Our heartfelt thanks to Rotarians Victor Martin, Radu Popescu and Roxana Ciufu from GOL Romania for their dedication, organization and hospitality to ensure a successful week. We are grateful to all Rotary Global Grant contributors for their partnership in healing little Romanian hearts.
THANK YOU TO THE VISITING TEAM FROM ALBANY MEDICAL CENTER

DR. HARM VELVIS
Interventional Cardiologist

DR. MICHAEL CAMITTA
Cardiologist

DR. WALTER EDGE
DR. JAMES HORSTMANN
Intensivists
